Price List, Spring 1910

This Berry is a new arrival from the North Slope of the Himalaya Mountains, 6,000 feet above sea level. It is black but not a blackberry. For many centuries the natives of that country have been making wine of it and only the invasion by British troops has brought this delightful, luscious fruit to our civilization.

Himalaya Berry

season. One plant in one year will give from 25 to 50 young plants. The truth is hard to believe.

Strong plants, \$2.00 for 12; \$10.00 for 100; \$75.00 for 1000. 3 at 12 rates, 25 at 100 1000 rates.

Price List, Spring 1910

The Superlative Raspberry—A Wonder

Superlative Red Raspberry was introduced in England by a Mr. Barnhart. The writer imported 5,000 plants. They proved so far superior to existing kinds that in 1908 he imported 10,000 more plants. These cost 30c each, and not enough to go around. In 1909 he imported 10,000 more, beside his own growing, and in a few weeks, and could have sold 100,000 if he had them. We are now growing our own plants. The Superlative is a strong, upright grower. The fruits stand upright and does not hang down like other raspberries. It is a long fruiter from spring to fall. When the fruiting canes are heavy in fruit, another cane or more is in process of fruiting as soon as the early is through fruiting and so continues through the season. Each fruiting cane bears many as 400 to 500 berries to the cane. It is best not to leave more than four canes to the hill. It grows four feet each way, and in June of each season, to mulch heavily with stable manure, leaves or straw gives the plants the steady moisture all summer that all berries like. The new canes should be four feet high. The canes of the Superlative are very stiff and need no support. They grow from five feet high. They like a rich loam with plenty of drainage. The berry of the Superlative is a rich velvety berry. The berry is pointed, 1 to 1 1/4 inch long and 3/4 of an inch diameter. The Superlative is the largest berry. The berry is solid, with small core, and can be shipped in quart baskets. It is the best berry of a rich, sweet flavor, and will give double the amount of berries to the acre. It is a commercial berry and a money maker.

3 at 12 rates, 25 at 100 rates, 250 at \$2.00 for 12; \$10.00 for 100; \$75.00 for 1000.
